

Atlassian Migration

ABOUT US

Precision in perfection - EPS Software Engineering is your reliable partner and expert for every aspect of software development in the technical field.

With over 50 years of experience, EPS is one of the largest independent software developers in Eastern Switzerland.

LOOK AT A DIRECT COMPARISON OF THE FUNCTIONS

Take a look at a general comparison of your deployment options and find out how the functions in Confluence Cloud and Data Center differ.

CLOUD

Atlassian is committed to a future in the cloud to help your teams collaborate, discuss and complete tasks together.

- ✓ Gain valuable time for your team's thanks to smarter collaboration, supported by machine learning, analytics and seamless integrations.
- ✓ Saved infrastructure costs and IT resources are available for strategic business priorities.
- ✓ Security, data protection, compliance and reliability - all integrated

DATA CENTER

Data Center is designed for customers who need a self-managed, firewall-protected environment.

- ✓ Continuous investment in performance and scalability, security and compliance, infrastructure and operations.
- ✓ Flexible deployment options, such as on-premises, Infrastructure-as-a-Service and Kubernetes
