

# Mobile Application

## ABOUT US

We are your trusted partner and Expert in digitalization, agile software development and in all process phases in the technical realm.

With over 50 years of experience, EPS stands as one of the largest independent software developers in Eastern Switzerland

## WHAT WE OFFER

At EPS Software Engineering AG, we're your bridge to innovative, cross-platform app development. We leverage Microsoft's .Net Multi-platform App UI (MAUI) to create apps for Android, iOS, Windows and macOS with a single, shared code base. This means cost-effectiveness without compromising on Swiss quality.

### EPS Library Set

The EPS Library Set: honed through years of Xamarin and MAUI mastery, it expedites development with essential functionalities—authentication, localization, data persistence, analytics and more. It's not just tools; it's our commitment to efficiency and reliability in every project.

### UX/UI Design

At EPS, we go beyond coding; we're problem solvers. Our UX/UI specialists transform your app from concept to user-centric masterpiece. Whether it's intricate business apps or consumer solutions, we ensure flawless functionality and captivating, intuitive design.

### Multi-Platform Expertise

Platform versatility is our strength—from iOS to Android, Windows to macOS, EPS ensures a seamless experience. Trust us with app store submissions; our track record proves our finesse in managing security, performance, design, and legal considerations.

Elevate your mobile app development experience with EPS, where precision meets innovation and your vision transforms into a seamless, high-quality reality.

## WHAT WE HAVE DONE

### NEWS AND MEMBER APP BASED ON MAUI FOR ANDROID AND IOS | [PHYSIOTHERAPIST APP FOR THE VPT](#)

The app provides physiotherapists with important information on health policy decisions, events, and training. It also offers features like VPT surveys, quick ICD-10 code queries, and a protected member area with helpful downloads. All information is updated via API from the VPT's website.

### MONITORING APP BASED ON MAUI FOR ANDROID AND IOS | [BERNINA STITCHOUT APP](#)

The BERNINA Stitchout app allows you to monitor your BERNINA embroidery machine's progress on your mobile device. Get real-time updates and push notifications from anywhere. The app uses MAUI and EPS library set, MDNS Discovery, SSE Server sent events, and REST APIs to communicate with the embroidery machine. Available on the Apple App Store and Google Play Store.

### TRUCK DRIVER APP BASED ON XAMARIN FOR ANDROID AND IOS | [PAPERLESS DRIVER'S CAB](#)

The Eberhard Unternehmungen's external driver app integrates external service providers into company processes, increasing efficiency. Available on both Google Play and App Store, the app uses Xamarin framework and EPS library set for cost reduction.
